

SPECIFICATION

This In-Desk Qi Charger provides the highest specification wireless charging for your guests. It is fully Qi Certified to WPC Qi V1.2.4 to guarantee maximum device compatibility. As a 10 watt device, the In-Desk Qi Charger will minimise the time it takes your guests mobile devices to charge. The In-Desk Qi Charger is easily fitted to any surface with an 86mm diameter hole and a thickness between 17mm and 40mm. As it mounts virtually flush with the surface it maximises the usable surface space for your guests, yet is still easily identifiable as a wireless charging point.

In-Desk Qi Charger, 10W
